Van iedereen die zich online begeeft, wordt zo een permanent en onuitwisbaar dossier bijgehouden. Edward Snowden vertelt in dit uiterst meeslepende boek voor het eerst zijn volledige verhaal. Hij laat zien hoe een intelligente jongen uit een idyllische buitenwijk, die opgroeide aan het begin van het internettijdperk en daar al snel de opwindende vrijheid van ontdekte, later een digitale spion werd die mee zou bouwen aan het grootste surveillance-netwerk ooit. Snowden vertelt indringend hoe hij in gewetensnood kwam en uiteindelijk alles op het spel zette om dit systeem aan de kaak te stellen. In ballingschap groeide hij uit tot het geweten van ons online bestaan. Onuitwisbaar is even scherpzinnig en elegant als overtuigend, even indrukwekkend als ontluisterend. Edward Snowden werd geboren in Elizabeth City, North Carolina, en groeide op in de buurt van de militaire basis Fort Meade in Maryland. Na zijn opleiding als systeemengineer kreeg hij een hoge functie binnen de CIA en werkte hij wereldwijd aan diverse projecten voor de NSA. Tegenwoordig is Snowden voorzitter van de raad van bestuur van de Freedom of the Press Foundation. Hij ontving verschillende prijzen voor zijn verdiensten, waaronder de Right Livelihood Award, de Duitse Whistleblower Prize, de Ridenhour Truth-Telling Prize en de Carl von Ossietzky-medaille van de International League of Human Rights.
