Vascular Medicine: A Companion to Braunwald's Heart Disease E-Book Mark Creager 2019-05-22

With authoritative coverage of everything from recent discoveries in the field of vascular biology to recent clinical trials and evidence-based treatment strategies, *Vascular Medicine*, 3rd Edition, is your go-to resource for improving your patients' cardiovascular health. Part of the Braunwald family of renowned cardiology references, this updated volume integrates a contemporary understanding of vascular biology with a thorough review of clinical vascular diseases, making it an ideal reference for vascular medicine specialists, general cardiologists, interventional cardiologists, vascular surgeons, and interventional radiologists. Incorporates technologic advances in vascular imaging - including ultrasound, MRI, CTA, and catheter-based angiography - along with more than 230 new figures, providing an up-to-date and complete view of the vascular system and vascular diseases. Covers novel antithrombotic therapies for peripheral artery disease and venous thromboembolism, advances in endovascular interventions for aortic aneurysms, and today's best surgical treatments for vascular diseases. Includes seven new chapters: Pathobiology of Aortic Aneurysms; Pathobiology and Assessment of Cardiovascular Fibrosis; Large Vessel Vasculitis; Medium and Small Vessel Vasculitis; Epidemiology and Prognosis of Venous Thromboembolic Disease; Fibromuscular Dysplasia; and Dermatologic Manifestations of Vascular Disease. Discusses methods for aggressive patient management and disease prevention to ensure minimal risk of further cardiovascular problems. Keeps you current with ACC/AHA and ECC guidelines and the best ways to implement them in clinical practice.

The Complete Guide to Cardiac CT Simeon Abramson 2011-12-07 Acquire a thorough understanding of cardiac imaging! "I believe radiologists, cardiologists, and clinicians, as well as trainees, will find *The Complete Guide to Cardiac CT* to be an indispensable tool for learning the subject matter....It is practical in approach, but is solidly grounded in evidence-based medicine with a comprehensive review of the literature and timely references. The textbook provides an ideal resource for the cardiac imager and serves as an exceptional reference tool for understanding the anatomy and disease processes of the heart and coronary circulatory systems."--Theresa C. McLoud, MD, Dept. of Radiology, Massachusetts General Hospital, and Professor of Radiology, Harvard Medical School (from the foreword) Based on the popular review courses of educator and radiologist Dr. Simeon Abramson, *The Complete Guide to Cardiac CT* is a timely, hands-on

learning tool—one that will help you master every important aspect of cardiac CT, from acquisition to interpretation. This unique guide translates complex concepts and topics into understandable, relevant subject matter and includes contributions from international leaders in cardiac CT. Designed for the practical, day-to-day application of cardiac CT, the text also serves as a comprehensive visual resource more than 1000 laser-precise images and illustrations, all of which reflect the latest clinical acumen and cardiac imaging technology. **FEATURES** Focuses on the recognition, identification, and comprehension of heart and coronary circulatory pathology Valuable to clinicians at any experience level Logical 4-part organization consists of: Technology section that encompasses coronary CT angiography technique, radiation concepts, and successful application of radiation dose reduction tools—plus a detailed review of strategies for overcoming suboptimal examinations, complete with case examples. Coronary Arteries section that thoroughly examines plaque detection and characterization, stenosis assessment, stents and bypass grafts, and assessment of coronary artery anomalies. Beyond the Coronary Arteries details cardiac CT anatomy; myocardial, pericardial and valvular pathology; electrophysiology applications; and congenital heart disease in both pediatric and adult populations. Controversial topics focuses on the utilization of cardiac CT in the acute setting, institution of the triple rule-out protocol, and anatomic versus physiologic imaging with Rubidium PET/CT/ Helpful pedagogy includes numerous tables, diagrams, figures, and illustrations

Periodic and Non-Periodic Fevers Rolando Cimaz 2019-10-29 This book, written by very well-known opinion leaders in the field, covers all aspects of periodic and non-periodic fevers, and related disorders. The expression refers to several different auto-inflammatory diseases, showing similar symptoms—the primary symptom being a recurrent fever for an infectious cause cannot be found. The opening chapters give some historical hints, explain the genetic basis of the disease and provide insights into the pathogenesis derived from recent experimental studies and guides the reader through classification and nomenclature. A large part of the book is then devoted to a detailed description of the specific related diseases and their clinical presentations, the disease course, and potential complications in both pediatric and adult patients. The advice regarding treatment is based on the best currently available evidence in this constantly evolving area. The book is part of Springer's series *Rare Diseases of the Immune System*, which presents recently acquired knowledge on pathogenesis, diagnosis, and therapy with the aim of promoting a more holistic approach to these conditions. Autoinflammatory diseases are hereditary disorders that are

caused by single-gene defects in innate immune regulatory pathways and are characterized by a clinical and biological inflammatory syndrome in which there is limited, if any, evidence of autoimmunity. Periodic and Non-Periodic Fevers will be an invaluable source of up-to-date information for all practitioners involved in the care of patients with these disease.

Win Win Marketing Amy Foxwell 2011-06-09 "This is a terrific practical guide. You will benefit from the way Amy has broken down the overwhelming subject of marketing into straightforward and easy-to-understand topics. Soon you'll be enchanting your customers like never before." -Former chief evangelist of Apple and marketing guru, Guy Kawasaki "The book is FANTASTIC - it's not so much a 'how to do marketing book' as a 'how to believe in your business and succeed' book. It's so well written and easy to read that you almost feel like you're having a chat with the author rather than being lectured at by some 'know it all.' The ideas are so simple that its almost just common sense and yet most business owners just wouldn't have the time to think of them" - Lia Banton, Small Business Consultant "A refreshing 'let's get back to basics' guide to marketing. Novices and seasoned marketers alike will benefit from these surprisingly simple and often overlooked marketing basics that can, and should, be put into place to generate solid business growth." David Eichenbaum Author of 'The Business Rules' and CEO of Eichenbaum & Associates" Marketing is a conversation and Amy's book will help you take it to a higher place." Tim Sanders, Business guru and author of Love is the Killer App and Today We Are RichTHE essential marketing guide, immediately applicable and pragmatic, the book is a collection of proven strategies that show business owners exactly how to grow their businesses. But the surprising difference to this book is the compelling combination of a marketing guide and a book on how to believe in your business and stay motivated. We all know in business it's often lonely and hard to keep focused on the end goals, and this is the perfect book to help entrepreneurs keep energy levels where they need to be in order to be as effective as possible. Think a hybrid between a bestselling a self-help guide and a step by step, key in hand marketing guide; Jack Canfield's The Success Principles meets Harry Beckwith's 'Selling the Invisible'. Entrepreneurs often suffer from isolation and a drain on their energy as they try to be jack-of-all-trades in a small or non-existent team. Their days are so filled with running their business that they often have no time to think of new ideas for growing their business or increasing profits. They are hungry not only for new ideas, but for support. Often it's not just the lack of business knowledge that hampers entrepreneurs, but difficulty in keeping motivated and believing in ones dream. This book will give business owners not only a variety of easy to implement and proven marketing activities that will build confidence, but also what isn't normally included in classic business books to help owners stay motivated and not feel so isolated. In addition individuals are becoming more and more concerned with feeling good about their business, using ethical practices and understand that in this new customer driven/customer-centric economy small businesses must establish a win-win business model and marketing system. Ideas like CRM and customer experience are bandied about, but small businesses neither understand them, nor know how to even begin to apply the ideas. Win Win Marketing will benefit all readers with its uniqueness:- combining a 'self-help' approach with down to earth practical marketing ideas- presenting a customer centric and positive way to approach marketing and business growth- easy to read and understand 'sound bites' that a time-pressed business owner can easily understand and apply- providing insider tips and resources to make the ideas immediately applicable- easy to implement, affordable and effective tips for effective advertising, using referrals, harnessing the web, getting new customers, increasing profits and more. The traditional business book lacks the human element, which is captured and spoken to in Win Win Marketing's compelling combination of a practical marketing guide and a psychological boost.

Letters from the Afterlife Elsa Barker 2008-12-23 Does life go on beyond the grave? With the recent surge in popularity of topics focused on life after death, Letters from the Afterlife, originally published in 1914 under another title, takes up this age-old question from a unique perspective - that of a man who has undergone "the great change" and has crossed the threshold we call death. Written through the hand of Elsa Barker, an established author in her own right, Letters presents a kind of "astral travelogue" that describes - often eloquently, sometimes humorously - life in the "invisible" world. David Patterson Hatch, a former judge, a writer of books, and a "profound student of philosophy, " explains his motivation for writing the letters: "This is a materialistic age. A large percentage of men and women have no real interest in the life beyond the grave. But they will all have to come out here sooner or later, and perhaps a few will find the change easier, the journey less formidable, by reason of what I shall have taught them. Is it not worthwhile?"

The Road to Multiculturalism in South Korea Timothy C. Lim 2020-12-13 This book aims to capture the complicated development of Korea from monoethnic to multicultural society, challenging the narrative of "ethnonational continuity" in Korea through a discursive institutional approach. At a time when immigration is changing the face of South Korea and an increasingly diverse society becomes empirical fact, this doesn't necessarily mean that multiculturalism has been embraced as a normative, policy-based response to that fact. The approach here diverges from existing academic analyses, which tend to conclude that core institutions defining Korea's immigration and nationality regimes—nd which, crucially, also reflect a basic and hitherto unyielding commitment to racial and ethnic homogeneity—ill remain largely unaffected by increasing diversity. Here, this title underscores the critical importance of "discursive agency" as a necessary corrective to still dominant power and interestbased arguments. In addition, "discursive agents" are found to play a central role in communicating, promoting, and helping to instill the ideas that create a basis for change on the road to remaking Korean society. The Road to Multiculturalism in South Korea will be of interest to students and scholars of Asian studies, immigration and migration studies, race and ethnic studies, as well as comparative politics broadly.

[The Distant Echo of a Bright Sunny Day](#) Pat O'Brien 2012-04-01 A group of environmental activists, out to shock a complacent public into a greater awareness of global warming and its devastating effects, orchestrates a number of subversive operations, including toppling a smokestack and dumping garbage on the house of a polluter. One night during a raid on a construction site, one of the members of the group is accidentally killed. When the activists travel to Montana to confront a cattle rancher bent on eradicating wolves, events take a dramatic and startling turn. Follow the riveting, page-turning action in *The Distant Echo of a Bright Sunny Day*, an exhilarating reading experience.

Cafe Racer: Beginner Guide of Racing Bike Building (Custom Bike, Bike Touring, Bike Riding, Cafe Racer Bike, Cafe Racer Motorcycle Perry Anderson 2019-03 Cafe Racer A café racer is a bike that

has been modified to race from a café to some different predetermined place. The maximum famous café (stated caff) became the Ace Café in London. Legend has it that motorcycle riders would race from the café, after choosing a sure record at the duke box, and go back before the record finished. This feat frequently necessitated achieving 'the ton' or a hundred mph. In England all through the 60s, low-cost motorcycles that would achieve the ton, were few and a ways among. For the common worker and motorbike owner, the most effective choice of getting the desired performance become to track the motorcycle with diverse racing options. effectively available tuning elements made the task simpler. Riders would upload extra elements as their budgets allowed. As riders delivered more and more elements, a popular look started to materialize - the café racer look. The standard specification of an early café racer might be: Swept-lower back pipes Clip-on's or 'Ace' bars everse cone Mega's (quick for megaphone mufflers - very a great deal a misnomer). Later motorcycles used Dunstall's, which have been silencers produced via tuning legend Paul Dunstall TT100 Dunlop tires Large carburetors Rear sets For many riders, having the café racer appearance turned into sufficient. but while the market for tuning parts absolutely started out to take off inside the mid '60s, the list of available and suitable components grew. except engine tuning parts, some of companies began to provide substitute seats and tanks. those replacements resembled the current trends in motorbike racing: seats with humps, and fiberglass tanks with indentations to clean clip-ons and the rider's knees. more high priced aluminum versions have been additionally available. Duct Tape Marketing Revised and Updated John Jantsch 2011-09-26 Is Your Marketing as Simple, Effective, and Affordable as Duct Tape? Let's face it, as a small business owner, you are really in the business of marketing. The problem for most small business owners is that they suffer from "marketing idea of the week" syndrome instead of implementing a systematic approach to the problem of small business marketing. In *Duct Tape Marketing*, renowned Small Business Marketing guru John Jantsch shows you how to develop and execute a marketing plan that will give your business the life and longevity you knew you could have when you made that decision to go out on your own. CAREFUL! Duct tape is a serious tool... it sticks where you put it. So are the ideas in this book. If you're ready to make a commitment and are willing to make something happen, John's book is a great place to start. ?Seth Godin, author of *Purple Cow* For all those who wonder why John Jantsch has become the leading advisor and coach to small businesses everywhere, *Duct Tape Marketing* is the answer. I have never read a business book that is as packed with hands-on, actionable information as this one. There are takeaways in every paragraph, and the success of John's blog is living proof that they work. *Duct Tape Marketing* should be required reading for anyone who is building a business, or thinking about it. ?Bo Burlingham, editor-at-large, Inc. magazine, and author of *Small Giants: Companies That Choose To Be Great Instead of Big* *Duct Tape Marketing* is a worthy addition to the growing library of how-to books on small business marketing?concise, clear, practical, and packed with great ideas to boost your bottom line. ?Bob Bly, author of *The White Paper Handbook* With the world suffering from depleted reserves of trust, a business that sells plenty of it every day tends to create the most value. The great thing about trust as a product feature is that it delivers exceptional returns. With this book, John Jantsch has zeroed in on exactly what small businesses need to sell every day, every hour. ?Ben McConnell, co-author of *Creating Customer Evangelists: How Loyal Customers Become a Volunteer Sales Force* John Jantsch has provided small businesses with the perfect perspective for maximizing all marketing activities - offline and on. Jantsch has the plan to help you thrive in the world of business today. Read it, all your competitors will. ?John Battelle, cofounding editor of *Wired* and author of *The Search: How Google and Its Rivals Rewrote the Rules of Business and Transformed Our Culture* *Duct Tape Marketing* is a great read for anyone in business. It has fresh ideas laid out in a practical and useable way. I highly recommend this book for growing any business. ?Dr. Ivan Misner, Founder of BNI and Co-author of the *New York Times* bestseller, *Masters of Networking*
