Elly Singer 2016-12-05 Pedagogisch medewerkers op kinderdagverblijven en peuterspeelzalen hebben een belangrijke rol in de opvoeding van kinderen. Daar is iedereen het inmiddels over eens. Opvang = opvoeden. Dit vraagt om een pedagogiek die specifiek voor kindercentra ontwikkeld is. Pedagogisch kader kindercentra 0-4 jaar: - inspireert en ondersteunt pedagogische medewerkers bij hun dagelijks werk; - vormt de basis voor het pedagogisch beleid van kindercentra; - maakt wetenschappelijke kennis en praktijkkennis toegankelijk voor de hele sector; - is uitgangspunt voor de kinderopvangopleidingen; - laat zien wat opvoeden in kindercentra inhoudt voor ouders en geïnteresseerden. Dit boek - een initiatief van het Landelijk Pedagogenplatform Kinderopvang - is een must voor (aankomend) pedagogisch medewerkers in kinderdagverblijven en peuterspeelzalen. Louis Tavecchio (hoogleraar kinderopvang UvA): 'Ik beschouw het Pedagogisch kader als een waardevol initiatief. Ik

hoop dat de geformuleerde uitgangspunten, ideeën en werkwijzen in het Pedagogisch kader zullen inspireren en verdieping brengen in de dagelijkse praktijk van de kinderopvang.' Bea Naninck (brancheadviseur Calibris): 'Mijn advies: zet het Pedagogisch kader op de agenda van het overleg tussen opleidingen en werkveld. Het biedt opleidingen veel houvast om hun onderwijs verder in te richten als het gaat om pedagogische vaardigheden.' Corrie van Brenk (ABVAKABO FNV): 'Dit boek laat zien hoe belangrijk het werk van een pedagogisch medewerker in de kinderopvang is. Deze erkenning is volkomen terecht want het is een beroep op trots op te zijn! Wij leveren hier graag een bijdrage aan.'

The Colony John Tayman 2010-05-11 In the bestselling tradition of In the Heart of the Sea, The Colony, “an impressively researched” (Rocky Mountain News) account of the history of America’s only leper colony located on the

Hawaiian island of Molokai, is “an utterly engrossing look at a heartbreaking chapter” (Booklist) in American history and a moving tale of the extraordinary people who endured it. Beginning in 1866 and continuing for over a century, more than eight thousand people suspected of having leprosy were forcibly exiled to the Hawaiian island of Molokai -- the longest and deadliest instance of medical segregation in American history. Torn from their homes and families, these men, women, and children were loaded into shipboard cattle stalls and abandoned in a lawless place where brutality held sway. Many did not have leprosy, and many who did were not contagious, yet all were ensnared in a shared nightmare. Here, for the first time, John Tayman reveals the complete history of the Molokai settlement and its unforgettable inhabitants. It's an epic of ruthless manhunts, thrilling escapes, bizarre medical experiments, and tragic, irreversible error. Carefully researched and masterfully told, The

Colony is a searing tale of individual bravery and extraordinary survival, and stands as a testament to the power of faith, compassion, and the human spirit.

America and the Vietnam War Andrew Wiest 2009-12-16 The Vietnam War was one of the most heavily documented conflicts of the twentieth century. of the time, the Vietnamese perspective, race and the war, and veterans and post-traumatic stress disorder. Features include: chapter summaries timelines discussion questions guides to further reading a companion website with primary source documents and tools (such as music and movie playlists) for both instructors and students. Buying Gay David K. Johnson 2019-03-12 In 1951, a new type of publication appeared on newsstands—the physique magazine produced by and for gay men. For many men growing up in the 1950s and 1960s, these magazines and their images and illustrations of nearly naked men, as well as articles, letters from readers, and advertisements, served as an initiation into gay culture. The publishers behind them were part of a wider world of “physique entrepreneurs”: men

as well as women who ran photography studios, mail-order catalogs, pen-pal services, book clubs, and niche advertising for gay audiences. Such businesses have often been seen as peripheral to the gay political movement. In this book, David K. Johnson shows how gay commerce was not a byproduct but rather an important catalyst for the gay rights movement. Offering a vivid look into the lives of physique entrepreneurs and their customers, and presenting a wealth of illustrations, *Buying Gay* explores the connections—and tensions—between the market and the movement. With circulation rates many times higher than the openly political “homophile” magazines, physique magazines were the largest gay media outlets of their time. This network of producers and consumers helped foster a gay community and upend censorship laws, paving the way for open expression. Physique entrepreneurs were at the center of legal struggles, especially against the U.S. Post Office, including the court victory that allowed

full-frontal male nudity and open homoeroticism. *Buying Gay* reconceives the history of the gay rights movement and shows how consumer culture helped create community and a site for resistance.

Twelfth Night - ISE - Ed. Carnegie William Shakespeare 2014-06-06 Twelfth Night has seldom been off the stage since Shakespeare's day. It has been performed for its romantic high comedy and its boisterous low comedy; with an emphasis on farce or on autumnal melancholy; as straightforward celebration of heterosexual love and marriage or as exploration of the complexity of gender. David Carnegie and Mark Houlahan's introduction to the play provides a lively discussion of the play's performance history and encourages readers to think about

stagecraft and the play as a performance text, while the historical appendices provide materials that illuminate different thematic elements of the play. Extended notes interleaved throughout the play present relevant illustrations and expand on mythological, historical, and religious references in the play. The accompanying online text will offer additional commentary on staging alternatives and more extensive visual materials. A collaboration between Broadview Press and the Internet Shakespeare Editions project at the University of Victoria, the editions developed for this series have been comprehensively annotated and draw on the authoritative texts newly edited for the ISE. This innovative series allows readers to access extensive and reliable online resources linked to the print edition.

Naar de river Olivia Laing 2011-11-25 Naar de

rivier is het verhaal van de Ouse, de rivier waar Virginia Woolf in 1941 zichzelf verdrong. Olivia Laing volgde haar pad langs deze rivier, waaruit Woolf voor haar boeken zo veel inspiratie putte. De reis is een reflectie op het veelbewogen leven van een van de markantste schrijfsters van de twintigste eeuw. Maar ook andere bekende auteurs in wier werk rivieren een belangrijke rol spelen, zoals Homerus, Shakespeare en Iris Murdoch, komen erin aan bod. In helder, poëtisch proza en met veel oog voor detail beschrijft Olivia Laing de rol van de rivier in leven en literatuur. Het resultaat is een fascinerende ontdekkingstocht waarin geschiedenis, literatuur en natuur soepel samenvloeien. Olivia Laing is schrijfster en redacteur. Tot 2009 werkte ze voor het literatuurkatern van The Observer. Ze schrijft verder voor diverse kranten en tijdschriften, waaronder The Guardian. Naar de rivier is haar debuut. 'Een magisch boek. de groep auteurs behoort die de natuur prachtig kunnen weergeven. Dit is een schitterend boek.' - Robert Macfarlane, auteur van De laatste wildernis

Wireless Writing in the Age of Marconi

Timothy C. Campbell 2006-01-01 Wireless technology has become deeply embedded in everyday life, but its impact cannot be fully understood without probing the contributions of the Italian inventor Guglielmo Marconi (1874-1937), who ushered in the beginning of wireless communication. Marconi produced and detected sound waves over long distances, using the curvature of the earth for direction, and laid the foundations for what we know as radio—the original mobile, voice-activated, and electronic media community. Timothy C. Campbell demonstrates that Marconi’s invention of the wireless telegraph was not simply a technological act but also had an impact on poetry and aesthetics and linked the written word to the rise of mass politics. Reading influential works such

as F. T. Marinetti's futurist manifestos, Rudolf Arnheim's 1936 study *Radio*, writings by Gabriele D'Annunzio, and Ezra Pound's *Cantos*, Campbell reveals how the newness of wireless technology was inscribed in the ways modernist authors engaged with typographical experimentation, apocalyptic tones, and newly minted models for registering voices. *Wireless Writing in the Age of Marconi* presents an alternative history of modernism that listens as well as looks and bears in mind the altered media environment brought about by the emergence of the wireless. Timothy C. Campbell is associate professor of Italian at Cornell University.

Contemporary Perspectives on Research in Assessment and Evaluation in Early Childhood Education Olivia Saracho

2015-08-01 Researchers, educators, professional organizations, administrators, parents, and policy makers have increased their involvement in the assessment and evaluation of early childhood education programs. This interest has developed swiftly during the last decades. The National Association for the Education of Young Children (NAEYC) and the National Association of Early Childhood Specialists in State Departments of Education (NAECS/SDE) developed a position statement titled, "Early childhood curriculum,

assessment, and program evaluation: Building an effective, accountable system in programs for children birth through age 8," to address related trends, issues, guiding principles, and values. Appropriate and well-designed evaluations need to address several audiences including researchers, educators, policy makers, children, and parents. They need to encourage the implementation of a strong foundation that improves the quality of the children's education. Child assessment and program evaluation can lead to effective results and better accountability for preschool, kindergarten, and primary school programs. The purpose of this volume is to share a collection of research strands on contemporary perspectives on research in assessment and evaluation in early childhood education. It provides a review and critical analysis of the literature on assessment and evaluation of programs, children, teachers, and settings. The volume begins with a brief introductory chapter that presents the reader with a map of the area,

laying out the issues and alternatives, and linking these to the chapters that follow. It addresses several areas including (1) understanding assessment and evaluation with young children, (2) schools and assessment implications, (3) teacher evaluation and professional development, (4) social relationships and assessment, (5) content areas in early education assessment, (6) technology and assessment, and (7) conclusion with future research directions in assessment and evaluation in early childhood education. The volume is of interest to researchers, educators, policy makers, university faculty, graduate students, and general readers who are interested in research on assessment and evaluation in early childhood education. The chapters are authored by established scholars in the field.

Research in Young Children's Literacy and Language Development Olivia N. Saracho
2019-12-13 The importance of the early years in young children's lives and the rigid inequality in

literacy achievement are a stimulating backdrop to current research in young children's language and literacy development. This book reports new data and empirical analyses that advance the theory of language and literacy, with researchers using different methodologies in conducting their study, with both a sound empirical underpinning and a captivating analytical rationalization of the results. The contributors to this volume used several methodological methods (e.g. quantitative, qualitative) to describe the complete concept of the study; the achievement of the study; and the study in an appropriate manner based on the study's methodology. The contributions to this volume cover a wide range of topics, including dual language learners; Latino immigrant children; children who have hearing disabilities; parents' and teachers' beliefs about language development; early literacy skills of toddlers and preschool children; interventions; multimodalities in early literacies; writing; and family literacy. The studies were conducted in

various early childhood settings such as child care, nursery school, Head Start, kindergarten, and primary grades, and the subjects in the studies represent the pluralism of the globe – a pluralism of language, backgrounds, ethnicity, abilities, and disabilities. This book was originally published as a special issue of *Early Child Development and Care*.

Housing the Stranger in the Mediterranean World Olivia Remie Constable 2004-01-15 The Greek pandocheion, Arabic funduq, and Latin fundicum (fondaco) were ubiquitous in the Mediterranean sphere for nearly two millennia. These institutions were not only hostels for traders and travelers, but also taverns, markets, warehouses, and sites for commercial taxation and regulation. In this highly original study, Professor Constable traces the complex evolution of this family of institutions from the pandocheion in Late Antiquity, to the appearance of the funduq throughout the Muslim

Mediterranean following the rise of Islam. By the twelfth century, with the arrival of European merchants in Islamic markets, the funduq evolved into the fondaco. These merchant colonies facilitated trade and travel between Muslim and Christian regions. Before long, fondacos also appeared in southern European cities. This study of the diffusion of this institutional family demonstrates common economic interests and cross-cultural communications across the medieval Mediterranean world, and provides a striking contribution to our understanding of this region.
