Settling the Colonies Priscilla Porter 2016-12-26 Colonial America is big part of American history! Children use print and digital sources and document their evidence as they learn the reasons for the founding of the colonies and the key people involved; the influence of geography and the physical setting on the founding of the colonies; religious practices and allegiances; daily life; major occupations and the goods produced; and, the impact on American Indian groups. Each lesson includes a variety of informative/explanatory writing activities, map-making, and constructing timelines. For the Colonial Job Fair, students receive an identity and an occupation and they must describe in detail the kind of work they do, the goods they produce, the steps required to complete their job, and the skills necessary to do the work. Costumes and props add to the fun. These easy step-by-step activities help kids learn, and more! This is the one curriculum guide every 5th grade teacher should have to help their students master the common core state standards for reading and language arts as they learn about the American Colonies.

Bilingual Education Nancy Lemberger 2013-12-16 This book grew out of the joys and challenges the author experienced as a Spanish/English bilingual teacher of culturally and linguistically diverse students. It tells what it is like to be a bilingual teacher. As a result, it helps other teachers and prospective teachers understand the complex nature of bilingual teaching, shares some successful teaching strategies that other teachers have used, and encourages teachers to find their own solutions despite limited support. The book is structured in three parts. The introduction explains how the book evolved, defines its relation to other qualitative research, and offers suggestions for how to use the book. The second part consists of eight bilingual teachers' stories that provide a glimpse of them as people, their schools and programs, their successes and struggles, and their solutions and coping mechanisms within their contexts. It concludes with a discussion chapter that looks at the teachers' collective strengths and struggles comparatively, connecting these to broader issues. The final section presents bilingual education resources -- useful information for practitioners. This includes foundation texts on the theories and practices of bilingual education, demographic information, a glossary of bilingual education terms, listings of curricula, tests, and literature mentioned by the teachers, and professional network sources.

Inclusion Lesson Plan Book for the 21st Century Toby Karten 2011-08 This Teacher Training Edition is for use by both instructors and their students in training sessions on inclusion practices. It is specifically designed for college professors and staff trainers who teach lesson planning skills as part of their pre-service or in-service courses. The content parallels the original Inclusion Plan Book, but is organized for training purposes and includes professional activities to examine inclusion practices for whole class, small groups, and individual students. It contains additional downloadable forms for inclusion documentation and online resources that are valuable tools for any "teacher-in-training" staff development program. Purchase multiple copies for your in-service professional learning experiences or have your college bookstore order copies for students taking your inclusion course.

It's about Time Priscilla Porter 2016-10-11 What is time and how do we measure it? One of the best ways to engage children is by involving them in projects related to their own lives. These step-by-step activities help young children place their daily routines into a chronological sequence, use time-telling tools, learn valuable time-related vocabulary, and create a time line of their own life. Engaging children's literature stories help them learn the days of the week and the months of the year. It's About Time includes multiple opportunities for children to practice a rich variety of common core standards for reading/language arts, mathematics, and science.

California in a Time of Excellence James Andrew LaSpina Follows California's efforts at reforming the public school system from 1983 to the present.

Learning to Love Assessment Sherah Betts Carr 2017-07-07 This book provides educators with two critical components of the assessment dialogue: understanding the historical and legislative perceptions that have created the current climate of school accountability, and deconstructing complexities to offer concrete solutions to make assessment an enjoyable, productive, student-owned endeavor.

Rules and Responsibilities Priscilla Porter 2016-09-20 Rules and laws are a big part of our life! But do young kids really know how the whole process works? These easy step-by-step activities help kids learn about rules, individual responsibility, how rules and laws are made, and more! This is the one book every teacher in Grade 1 should have to help their students master the common core state standards as they learn about rules, individual responsibility, and how rules and laws are made.

Learning from the Past Diane Ravitch 1995-02 "The quality of the contributors alone is enough to make this an excellent book. It is a valuable compendium -- and bibliography -- of recent thinking on the historical context of current discussions of educational reform." -- Robert A. McCaughey, Barnard College

Biography-Driven Culturally Responsive Teaching Socorro G. Herrera 2022-05-06 This popular resource has transformed classrooms for thousands of teachers by providing how-to guidance for success with culturally and linguistically diverse (CLD) students. It illustrates how to use strategies that recognize and leverage all the cultural and linguistic assets that students bring to their learning. This new edition situates biography-driven instruction at the intersection of culturally responsive teaching, culturally sustaining pedagogies, and anti-racist education. Herrera provides updated vignettes and student work artifacts to reflect the diversity of learners in today's historically and culturally situated spaces. Teaching strategies, tools, and interactional processes provide practical, proven ways to restructure classrooms for relational equity. Increased attention on each learner's biopsychosocial history will help educators to cultivate classroom ecologies that nurture and challenge CLD learners to reach their potentials. With lesson planning and strategy templates, tips for grouping students, teacher reflections, assessment aids, a classroom observation tool, and more features to foster classroom and schoolwide change, this edition shows teachers and administrators how to take the next steps toward critical consciousness and authentic relationships that will accelerate content learning and foster more extensive use and development of language. Book Features: Lesson planning guide that can be used with any curriculum. Strategy tools and templates to foster engaged learning. Voices of CLD families that highlight benefits of asset-driven practices. Journaling process for critical reflection on assumptions and perspectives. Book study discussion guide to scaffold collaboration and goal setting. Classroom observation tool for coaching, mentoring, and self-assessment.
